OFFICIAL PROGRAMME

E. TYMAN

All the players playing to-day are qualified by birth to play for their respective Counties, several of the Gunbelfand team have left their original clubs to wear other jerseys. The gates in Cumberland do not allow the remuneration received by players in LANCASHIRE and YORKSHIRE which may partly account for this migration. We find Walmsley and Ward playing for Leeds. Clarke, Papwick and Skamper assisting Huddersfield. Southward wears the Red Jerseys of Salford. Hockaday has just come from the County of Lancashire and has been playing for Oldham. In the match against Cheshire, he kicked 6 goals and he has been helping himself, and his Club, to goals ever since. Before Lancashire players had to be Lancashire born. Joe played for 6 successive seasons for LANCASHIRE. He captained Oldham, Cumberland, and ENGLAND against the first professional team, that visited us from Australia, and helped to win every one of these three matches. He has kicked some wonder full goals, and as he himself modestly says has missed some easy ones. We at home, well remember a drop kick of his at Broughton that won Oldham the Lancashire Cup, and put paid to our aspirations. The LANCASHIRE players will not need any introduction, you will doubtless know them all.

The Swinton Club are proud to have the honor of this match being played on our ground. It is some 26 or 27 years since a county match was played here, when Cheshire were the visitors. We cordially welcome both teams, and the country officials and hope that the match will be a success in every way. J.W.S.
