REGRY REVIEW

TODAY we commence matters in earnest with our first League clash of the new season and we welcome the Oldham Players, Officials and Supporters to the Recreation Ground this afternoon and look forward to a good game of R.L. Football.

In truth we could not have wished for a tougher opening to the season; Oldham were well up among the Division 1 leaders in mid-term last season but fell away badly in March and April and can perhaps count themselves desperately unlucky to have been relegated. No doubt they will be looking for a win here this afternoon as they attempt to return to Division 1 at the first time of asking.

Closer to home the major topic of conversation with Haven fans over the close season has been "... Can the Haven make it into Division 1 this time?".

I noted last season that it was becoming increasingly difficult with the decrease in the promotion places available, for the Haven to make that elusive move into Division 1. This season sees Barrow, Oldham, Featherstone and Wakefield in Division 2. So the chances of Haven being promoted this term on the face of it look pretty slim.

However on further examination of the situation things are not quite as gloomy as they seem. Reflecting back on last season the form we produced in the last half of our fixtures was better than both Swinton and Hunslet the two promoted clubs. If we can pick up this term where we left off, then there is no reason why we should not figure in the promotion race again this term. Our squad has been strengthened and should be thereabouts even in this seasons much more competitive Division 2.

Another lesson we should take on board from

last season is that we really cannot afford such an indifferent start to the season. As we did last year. Remember we lost three away games in September that we should have won and in the final analysis it was these defeats that cost us promotion.

Again it comes back to the players reproducing the form showed over the latter half of last season right from today. When one considers that after today we have to play Wakefield and Doncaster (Home) then Featherstone and Sheffield (Away) anything less than our best form could see us all but down and out by the end of September.

The form we showed in our two pre-season matches has been far from convincing and does not auger well for the future. However I do not think that you can read too much into these performances. We should and we will improve over the next few weeks, particularly with the introduction of the overseas players which may already have started today.

Certainly I will be looking for a better showing this afternoon than we witnessed against Carlisle or Barrow. A victory today over promotion contenders Oldham would be the ideal way to start the season and give us a timely morale booster as we face the month ahead. If our players can rise to the challenge then we could have six valuable league points in the bank come the end of September.

In closing I would like to welcome this seasons first two Antipodean recruits in KELLY SHELFORD and IAN BELL to the Recreation Ground.

KELLY SHELFORD is reputedly one of the best young players in New Zealand, a former Captain of the Junior team and certainly looks to have a great future in the game. he can play either at loose forward or stand off.

IAN BELL is well known in these parts, having spent a season with Carlisle in 1982/83. An experienced forward who has played five times for New Zealand. His guile and skill should add that extra bit of class to our pack displays.

We wish both players all the best and hope they enjoy their stay at the Recreation Ground.

SPIKES Sidelines

THE 1988 Great Britain Tour down under will be among the shortest ever with 18 matches in 9 weeks. Equalling the Pioneer Tourists of 1910 and 1914.

The Lions Tour, sponsored by Whitbread Trophy Bitter, starts in mid-May and features 13 games in Australia, 3 in New Zealand and 2 in Papua New Guinea.

Five of the fixtures will be Test matches, 3 of them — one against each country — being World Cup rated.

The 1988 visit is the first in the new style Tour timetable with Britain now travelling round the world every two years instead of the traditional four year span. Australia is the main touring area next year, with New Zealand the central attraction in 1990.

On the last Tour in 1984, Britain played 24 matches — 15 in Australia, 8 in New Zealand and 1 Test in Papua New Guinea.

The highlight of the 1988 itinerary is the mid-week clash with top Sydney side Manly, the outfit with which new Great Britain Coach Malcolm Reilly starred in the early 1970's. The Brookvale visit is only the fourth time that the Great Britain Tourists have faced Sydney club opposition following St. George in 1962, Balmain in 1966 and North Sydney in 1984.

In a bid to increase revenue, the itinerary introduces four new representative fixtures with two encounters against a New South Wales country selection and meetings with a President's XIII and a combined Brisbane select side. Traditional fixtures include North Queensland, Newcastle, Central Queensland, Wide Bay and Toowoomba.

The Tourists have to visit New Zealand to round off their World Cup commitments and there will also be games against Central Districts at Wellington and Auckland.

The date for the 1988 World Cup Final has yet to be scheduled although several of the 1988 Lions will stay in Australia at the end of the Tour to take part in the Australia v The Rest of the World meeting as part of the Australian bicentennial celebrations.

ALLIANCE notebook

ONCE again our reserve squad will be playing in Division 2 of the Slalom Lager Alliance.

Haven 'A' started the season yesterday when they took on Oldham at the Watersheddings. Not the easiest of openers, but we did win comfortably there towards the end of last season.

The Second Division of the Alliance could prove very competitive this season, with Barrow, Carlisle, Workington and Whitehaven second strings all featuring, while Alliance newcomers Doncaster and Blackpool Springfield should be no pushovers.

The Alliance fixture list for 1987/88 is as follows:—

CONFUCIUS said: "Study the past if you would define the future," and while Oldham Directors are not in anyway arguing with the Sage's wisdom they are not sitting around waiting for things to happen. The club has always possessed great foresight from its formation in 1872, when a few enthusiasts met in Oldham's Prince Albert Hotel.

There have been several notable periods in their history, going back to 1898-99 when they became the first Lancashire side to win the N.U. Challenge Cup.

The 1904-05 season found "t'Owdham Lads" at the top of the First Division of the NRL. In the first three seasons of the play-offs, Oldham were runners-up in the Final, and League Champions in the two seasons of 1909-10 and 1910-11. In modern times the Championship has been secured only once — in 1954-55.

On April 12th, 1924, Oldham met Wigan in the Challenge Cup Final at Rochdale. The ground was submerged by a mass of humanity — 41,831 to be exact.

Although Wigan, with Jim Sullivan beat Oldham 21-4, they were far from being down and out. They appeared in the next three finals, establishing a record — at that time — in playing in four consecutive Challenge Cup Finals. The team triumphed over Hull K.R. and Swinton in 1925 and 1927, and lost to Wigan and Swinton in 1924 and 1926.

This period was one of the most memorable in Oldham's history, for the team contained such names as Sid Rix, Reg. Farrar, Evan Davies, George Hesketh, Bob Sloman, Archie Brough, Herman Hilton and Joe Corsi.

Despite 24 major finals, Oldham's great dream — Wembley, still eludes them. The nearest they came was 1964, leading Hull K.R., 17-14 in a semi-final replay with 12 minutes remaining — the match was abandoned. Rovers won the replay 12-2.

Promotion however, will be the main target this season, Wembley can wait... or can it?

CLUB INSIGHT

SPOTLIGHT ON OLDHAM

JEFF EDWARDS—A promising young full back who joined Oldham from Warrington A.R.L. last year. The early season absence of the experienced Mick Burke gives Jeff a chance to make an impact in first grade Rugby.

RICHARD IRVING—A quick strong running winger who Oldham officials rate highly. He was signed from Moldgreen A.R.L.F.C. (Huddersfield) last year and looks to have a bright future.

COLIN HAWKYARD—A utility player, who came to the Watersheddings 9 seasons ago from Huddersfield Amateur Football. A long striding player who normally plays in the second row but can perform equally well at centre.

KEITH ATKINSON—A product of Oldham Junior Football, a promising young centre who has just broke into the first team.

KEVIN MEADOWS—A pacy elusive winger who came to the fore with his home town team St. Helens. Moved to Warrington several years ago before joining Oldham in the close season.

STEVE PETERS—Another former "Saint" who came to the Watersheddings during the summer. Noted as a utility player though. Most effective at half back, he had previously been with Warrington.

PADDY KIRWAN—A former Oldham Colt who gained G.B. Colts Honours. Paddy has been with the club since 1980, but only made the No. 7 jersey his own since the departure of Ray Ashton to Leeds.

IAN SHERRAT—A tough hard working prop formerly with Bradford. He joined Oldham this summer in part exchange for David Hobbs.

IAN SANDERSON—A Leigh based hooker who has been at the Watersheddings for several seasons. Has now established himself as a reliable ball winner and an industrious worker in the loose.

HUGH WADDELL—Ex Burton R.U. and England Under 23 prop forward who made a big impact turning pro with Blackpool Borough in 1983. Moved to the Watersheddings in January this year. Gained England honours v Wales in 1984.

MICK WORRALL—A product of Warrington A.R.L., who joined Oldham in 1981. A strong running skilful 2nd row forward who also played for G.B. Under 24's.

MAL GRAHAM—Highly rated Aussie forward who returned to the Watersheddings during the summer as Player-Coach. Previously played with Hunslet and Bradford Northern.

TERRY FLANAGAN—An experienced ball playing forward who was signed from Saddleworth Rangers in 1980. Has gained both full and Under 24 honours for G.B. as well as touring Australia in 1984.

PAUL ROUND—Oldham's major close season buy, signing from St. Helens for a substantial fee. A hard running back-row forward who has gained G.B. Under 21 honours.

Number 1 BILLY FISHER

TODAY, 24 years old Billy Fisher embarks on his seventh season of senior football. Billy joined Haven from Rugby Union side St. Benedicts on July 5th, 1981, and made his first team debut during the 1981-82 First Division campaign, against then Challenge Cup holders Widnes, at Naughton Park on 25th October 1981 — two days before his 19th birthday.

He had, however, to wait until the following season before recording his initial touchdown, which came against Dewsbury at the Recreation Ground on 29th August, 1982. Haven winning 29-9.

Billy's season by season record for Haven reads as follows:—

	App	T	G	DG	Pts

When all's added up...

At the Marchon Works, raw materials are first converted chemically to intermediates such as sulphuric acid. We can make half a million tonnes a year - more than any factory in the United Kingdom. And - from this acid and phosphate rock - over a quarter of a million tonnes of sodium tripolyphosphate, a vital ingredient in detergent powders. We can make more than any factory in the world.

From intermediates, we make finished products; toiletries such as shampoos. We are Britain's number one supplier of shampoo materials. We make nearly all the private-label detergent powders sold in British supermarkets. And general chemicals for the oil, construction, engineering, plastics, rubber, textiles and many other industries.

Every year we contribute well over £½ million to the Cumbrian economy through the rates and we spend over £12 million on goods and services from local businesses.

Over the last four years we have spent or committed over £50 million on new plants and processes at Whitehaven.

We export to over 100 countries and have won The Queen's Award for Export Achievement three times. We employ almost 1800 people and we are now the largest business in the private sector in the County.
